GUARANTEE INFO

All of our appliances are covered by guarantee for at least a year from the manufacturer so in the unlikely and unfortunate event of an appliance breaking down the manufacturer should be your first port of call. Below is a list of numbers from all the manufacturers in this catalogue I hope this list proves useful to make getting your problem solved less hassle.

Please note: Before making the call make sure to check that the solution is not a simple one, like a blocked filter, loose wire or something of that sort

Before making the call make sure to have all the details ready, for example the make, model and serial number which can be found on the machine usually in the door area or on the back and your/tenants personal details as well.
